2 Demo session: YellowPager: a tool for ontology-based mining of service directories

Prashant Choudhari, Hasan Davulcu, Abhishek Joglekar, Akshay More, Saikat Mukherjee
August 2002 Proceedings of the 25th annual international ACM SIGIR conference on Research in information retrieval

Full text available:  pdf(58.14 KB)

Additional Information: full citation, abstract

The web has established itself as the dominant medium for doing electronic commerce. It provides significant market and business opportunities, service providers, both large and small, are providing services on the web. A number of them operate their own web sites promoting their services merely listed in a referral site. Aggregating all of the providers into a queriable service directory would help customers to locate the one ...

1 Papers from Hotnets-II: The dark side of the Web: an open proxy's view

Vivek S. Pai, Limin Wang, Kyoungsoo Park, Ruoming Pang, Larry Peterson
January 2004

ACM SIGCOMM Computer Communication Review, Volume 34 Issue

Full text available: pdf (102.49 KB)

Additional Information: full citation, abstract, refer

With the advent of large-scale, wide-area networking testbeds, researchers can de
interact with other resources on the Web. While such interaction can easily attract
suggests that projects accepting outside input and interacting with outside resource
avenues for advice of such services The CoDaan Content Distribution Network dan

services for users of such services. The service connects distributed networks, web caching Web proxy servers to intell ...

2 Balance in architectural design

Samuel Ho, Lawrence Snyder

May 1990 ACM SIGARCH Computer Architecture News , Proceedings of the 17th annual Computer Architecture, Volume 18 Issue 3

Full text available:  pdf(906.23 KB)

Additional Information: full citation, abstract, references, it

We introduce a performance metric, normalized time, which is closely related to su of VLSI theory and the price / performance ratio of advertising literature. This metr hardware “pulling its own weight,” i.e. contributing as much to perfor then prove general theorems for stating when the size of a given part is in balance

Vivek S. Pai, Limin Wang, KyoungSoo Park, Ruoming Pang, Larry Peterson
January 2004 ACM SIGCOMM Computer Communication Review, Volume 34 Issu

Full text available:  pdf(102.49 KB)

Additional Information: full citation, abstract, refer

With the advent of large-scale, wide-area networking testbeds, researchers can de interact with other resources on the Web. While such interaction can easily attract suggests that projects accepting outside input and interacting with outside resourc avenues for abuse of such services. The CoDeen Content Distribution Network, de of caching Web proxy servers to intell ...

4 Invited workshop on middleware interoperability of enterprise applications: A reflective middleware to solve the problem of mobile client interoperability

Paul Grace, Gordon Blair, Sam Samuel

September 2003 Proceedings of the 1st international symposium on Information and c

Full text available:  pdf(180.79 KB)

Additional Information: full citation, abstract, refe

Mobile client applications must discover and interoperate with application services location. However, these services will be developed upon a range of middleware ty and advertised using different service discovery protocols (e.g. UPnP and SLP) unk Therefore, a middleware platform supporting mobile client applications should idec interoperate with any type of discove ...

5 The attraction of personalized service for users in mobile commerce: an emy

Shuk Ying Ho, Sai Ho Kwok

December 2002

ACM SIGecom Exchanges, Volume 3 Issue 4

Full text available:  pdf(49.39 KB)

Additional Information: full citation, abstract, references, citing

There has been a notable increase in consumer use of mobile applications. Consun applications. In response, firms have been investing billions of dollars in order to e platforms for mobile commerce. Consequently, with such large investments, firms clients and retain their old customers. In the present study, the strategic paramet determine the ways in which mobil ...

6 An architecture for secure wide-area service discovery

Todd D. Hodes, Steven E. Czerwinski, Ben Y. Zhao, Anthony D. Joseph, Randy H. Kε
March 2002 Wireless Networks, Volume 8 Issue 2/3

Full text available:  pdf(365.68 KB)

Additional Information: full citation, abstract, references, i

The widespread deployment of inexpensive communications technology, computat infrastructure, and network-enabled end devices poses an interesting problem for network service or device out of hundreds of thousands of accessible services and architecture and implementation of a secure wide-area Service Discovery Service (to advertise descriptions of available ...

Keywords: location services, name lookup, network protocols, service discovery

7 GlueQoS: Middleware to Sweeten Quality-of-Service Policy Interactions

May 2004 Proceedings of the 26th International Conference on Software Engineer

Full text available:  pdf(652.24 KB)  Publisher Site

Additional Information

A holy grail of component-based software engineeringis "write-once, reuse everyw distributed, component-based systems supportingemerging application areas such web services are viewed as components)and Peer-to-Peer computing, this is difficl (related to quality-of-service (QoS) issues such as security, reliability,and perform andsometimes even at run-time, complicating t ...

- 8 Data and Content: MarconiNet supporting streaming media over localized wi**
Ashutosh Dutta, Subir Das, Wai Chen, Anthony McAuley, Henning Schulzrinne, Onur September 2002 Proceedings of the 2nd international workshop on Mobile comm

Full text available:  pdf(464.72 KB)

Additional Information: full citation, abstract, references, cite

Flexible multi-media streaming such as advertisement insertion, location based services vital components that make existing Internet Radio and TV networks more attractive applications also provide added value to telematics, and military usage including communication awareness, distributed simulation, battlefield communication and multi-player game wired network can be realized ...

- 9 Technical correspondence: Smart proxies for Jini services**

Pascal Ledru

April 2002

ACM SIGPLAN Notices, Volume 37 Issue 4

Full text available:  pdf(280.02 KB)

Additional Information: full citation, abstract, references

Jini has been advertised as a self-healing infrastructure where both services and clients go. However, it does not explicitly address the issue of how to recover when a component which suddenly fails. This paper presents how smart proxies can be implemented in order to transparently reconnect to another instance of a service in case of a failure. An alternative language: dynamic proxy is used ...

10 Papers: A web server's view of the transport layer

Mark Allman

October 2000

ACM SIGCOMM Computer Communication Review, Volume 30 Issu

Full text available:  pdf(1.23 MB)

Additional Information: full citation, abstract, references,

This paper presents observations of traffic to and from a particular World-Wide Web half. This paper presents a longitudinal look at various network path properties, as various protocol options and mechanisms. In particular, this paper considers how connections to transfer web data; the deployment of various TCP and HTTP options observed in the network; packet ...

11 Infomaster: an information integration system

Michael R. Genesereth, Arthur M. Keller, Oliver M. Duschka

June 1997 ACM SIGMOD Record, Proceedings of the 1997 ACM SIGMOD international

Volume 26 Issue 2

Full text available:  pdf(516.07 KB)

Additional Information: full citation, abstract, references, citation

Infomaster is an information integration system that provides integrated access to information sources on the Internet, thus giving the illusion of a centralized, homogeneous that Infomaster creates a virtual data warehouse. The core of Infomaster is a facile efficient way to answer the user's query using as few sources as necessary and having these sources. Infomaster ...
